If you have any medical concerns which may require special consideration in determining your room assignment, attach an explanation on a separate sheet, which will be sent to the College Health Center.

VERMONT TECHNICAL COLLEGE ROOM CONTRACT

All students are normally assigned to a "double" room, with a roommate and are expected to continue in a double room for the temporary housing period. In the event one's roommate leaves the college, a new roommate or reassignment to another room option will be given. "Single" rooms are available subject to space availability, or with documented need. There is an additional charge if a "single" room is granted. The cost is $304.60 a week which includes room and board with a maximum of 30 days. If the student has not found alternative housing after 30 days he or she will be required to commit to the remainder of the school year. Each week must be paid for at the beginning of each week, the first payment is due prior to move in and can be made at Student Accounts.

This Contract for College Housing is for temporary housing.

This is to acknowledge receipt of the Terms and Conditions of the Vermont Technical College Room Contract.
