

VERMONT TECH

Vermont Technical College is currently seeking candidates for **Nursing Clinical Associate** positions with our Nursing program on our nursing sites statewide. These are part time positions; variable days, with a schedule of 28 hours a week maximum. These positions do not include a benefits package.

The Clinical Associate provides clinical instruction to the students, assisting them to apply concepts learned in the classroom to patient care in clinical areas. The Clinical Associate serves as a liaison between the College and clinical agencies.

Qualified candidates will possess a MSN with significant nursing experience and must demonstrate excellent communication and teaching skills. Those currently enrolled in an MSN program to be completed within 3 years may be considered. A BSN will also be considered for Clinical Associate positions in our Practical Nursing program. We offer a competitive hourly rate of \$30 - \$40 depending upon education and experience.

Vermont Technical College offers a 1+1+2 Practical Nursing Certificate, Associate Degree in Nursing, and RN to BSN online program that encourage nursing career ladder advancement. The first year is three semesters and culminates with a Certificate in Practical Nursing. Candidates who complete the first year are eligible to sit for the NCLEX PN exam. The second year, the Associate Degree in Nursing year, consists of two semesters and successful completion allows the graduate to sit for the NCLEX RN exam. Candidates must be LPNs to be considered for the second year of the program. The third and fourth years are completely online and allow a student to obtain a Bachelor's in Nursing Degree.

Vermont Technical College delivers instruction at four traditional campuses (Bennington, Brattleboro, Randolph Center and Williston). There are also multiple distance sites that deliver instruction remotely to the following communities: Lyndonville, Middlebury, Newport, St. Albans, Springfield and White River Junction.

Our students tend to be "non-traditional", many coming to our program with degrees and experience in other fields. While there is diversity among our students' backgrounds, there is a common goal to obtain nursing knowledge. Our graduates consistently score above the National Average on the NCLEX.

To apply, send a completed VTC employment application, resume and cover letter to jobs@vtc.edu. Employment application is available at <http://www.vtc.edu>. Employment is subject to results of a fingerprint supported criminal background check.

Vermont Tech strongly encourages applications from members of ethnic minority groups and other under-represented backgrounds. Vermont Tech is an Equal Opportunity Employer and a member of the Vermont State Colleges system. In compliance with ADA requirements, we will make reasonable accommodations for the known disability of an otherwise qualified applicant.
